

Industrial & Speciality Gas Valves,
Manifolds & Packaged Systems

Hale Hamilton

HOKE®

Circle Seal Controls

GO Regulator

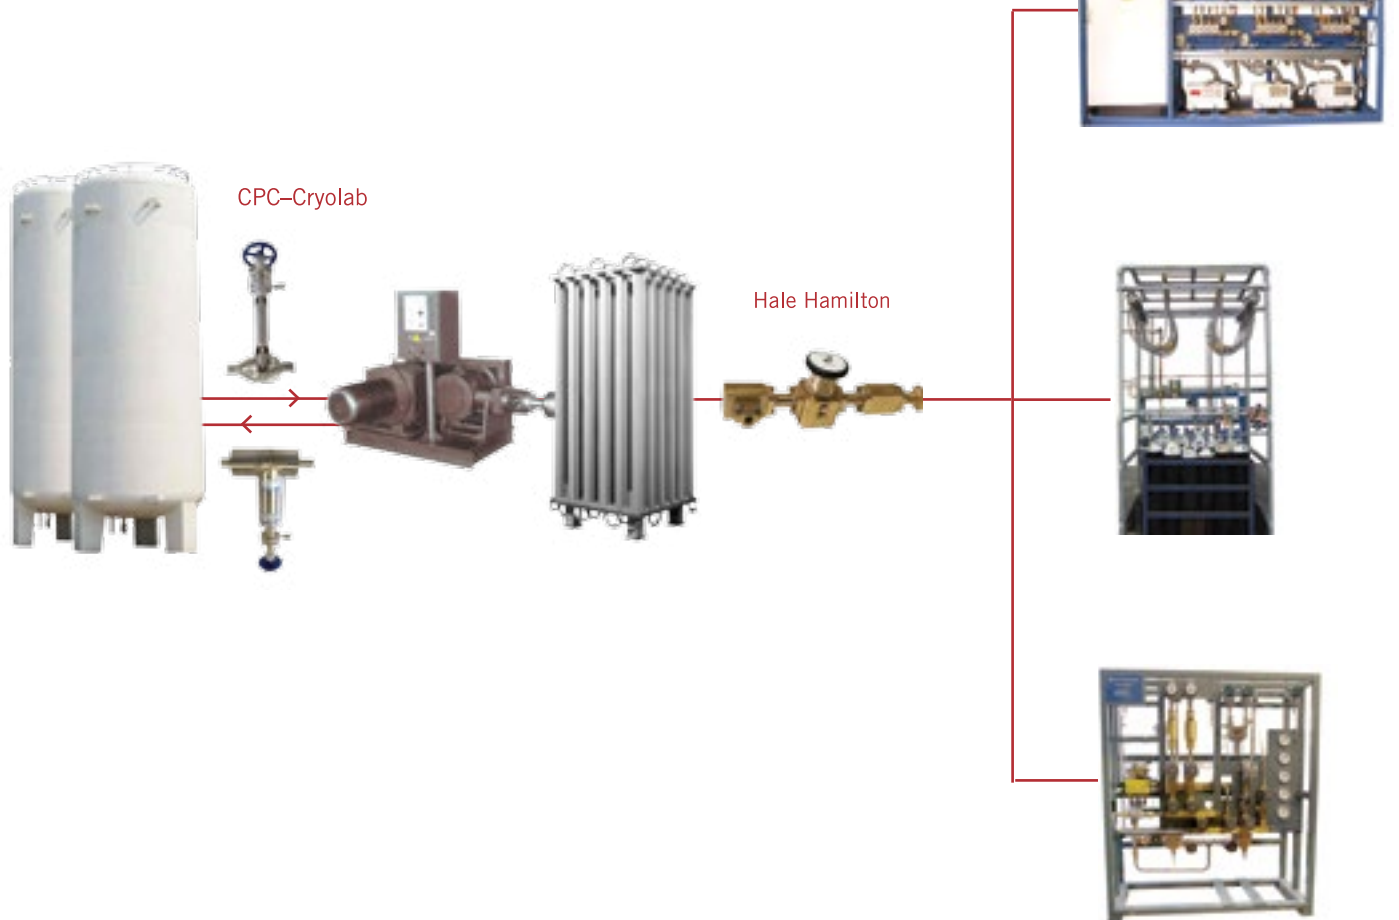

Welcome:

CIRCOR International Inc is an \$800m+ NYSE manufacturing organisation focused on designing, manufacturing and supply specialist fluid control products, to a vast number of Industrial / Process applications.

With Sales and Manufacturing facilities in 11 Countries, employing more than 3000 direct employees and 950 local distributors and 28 business units / brands, offering products ranging from standard catalogue components through to complete Cylinder Filling and Pressure Reduction systems, CIRCOR are the ideal partner to satisfy your exacting valves and instrumentation needs.

CIRCOR Industrial & Speciality Gas brands and application portfolio

HALE HAMILTON[®]
Excellence in Pressure & Flow Control

Welcome:

Hale Hamilton is a world leader in the design, manufacture and supply of valves, valve modules and packaged solutions for the Industrial & Speciality Gas Industry.

Key applications:

- Cylinder Filling Equipment for Industrial, Medical, Speciality Gas and Electronic Gases.
- Gas Pressure Reduction & Distribution System solutions.
- Trailer load / unload valves and systems.

Expertise / experience:

- 420 bar Medical Oxygen service valves and equipment – adiabatic shock tested by CTE & BAM
- 500 bar Hydrogen valves conforming to Transportable Pressure Equipment Directive 2010/35/EU (TPED and ADR), meeting the requirements of EN ISO 10297:2006
- Comprehensive range of manifolded solutions
- Full system / package design, build, install and maintain.

Welcome:

HOKE®, GO Regulator and Circle Seal Controls all design, manufacture and supply high pressure, high integrity instrumentation products, valves and pressure regulators used within the Industrial & Speciality Gas sector.

Key products within these world renowned brands include;

- GYROLOK®, the world leading range of compression fittings.
- Manifold, Monoflanges & Double Block and Bleed Valves.
- GO Regulator High Purity Pressure Regulators and Point-of-Use regulator stations.
- GO Regulator heated Pressure Regulators.
- Circle Seal Controls pressure relief valves and ATKOMATIC Solenoid Valves

Key materials and design standards;

- 6% MO, Duplex, HASTELLOY® C276 and INCONEL®
- ISO9001:2008 company, NACE MR-01-75, NORSOK M-650DNV, ASTM, PED/TPED, CSA, ATEX, GOST, ASME

Welcome:

CPC are a World leaders in the design, manufacture and supply of Cryogenic Control Valves & Equipment for the Industrial & Speciality Gas Industry.

CPC-Cryolab produces state-of-the-art cryogenic valves and other advanced technology to the industrial gas industries. Industrial gas producers such as Air Products and Chemicals, Praxair, Linde (BOC) and Air Liquide have all specified CPC valves to satisfy exacting materials and safety requirements. CPC has designed and manufactured valves, filters, manifolds and fill hoses for the space shuttle controlling the liquid oxygen and hydrogen used for engine fuel, breathing gas, and fuel cell power generation.

Key products:

- Cryogenic Vacuum Insulated Valves
- Liquid Helium Cold box Valves
- Vacuum insulated bayonet connections
- Uniseal Cryogenic couplings (-320 degrees F)
- Bellow sealed valves
- Cryogenic filters

Key applications:

- Cryogenic Storage Tanks
- Cryogenic Transportation trailers
- Cryogenic Vacuum Jacketed piping systems
- Cold box control
- Cryogenic transfer hose & filling systems
